# CUMIN SEEDS

## About Our Cumin Seeds

Cumin Seeds, known as Jeera, are one of the most prized Indian spices with a distinctive earthy, warm, and slightly bitter flavor. At SIDDH SAGAR OVERSEAS, we source premium-grade cumin directly from India's leading spice-growing regions. Every batch is cleaned, graded, and packaged under strict hygiene and international food safety standards.

Cumin seeds, commonly known as Jeera are used in the cuisines of many different cultures, in both whole and ground form. It also has many uses as a traditional medicinal plant. The cumin plant grows to 30-50 cm (12-20 in) tall and is harvested by hand. The main producer and consumer of cumin is India. It produces 70% of the world supply and consumes 90% of that (which means that India consumes 63% of the world's cumin). Cumin seed is used as a spice for its distinctive flavor and aroma. Cumin can be found in some cheeses, such as Leyden cheese, and in some traditional bread from France. Cumin can be an ingredient in chili powder (often Tex- Mex or Mexican-style), and is found in achiote blends, adobos, sofrito, garam masala, curry powder.

## Cumin Seeds

Cumin is a flowering plant in the family Apiaceae, native from the east Mediterranean to South Asia.

# CORRIANDER SEEDS

## About Our Coriander Seeds

Coriander Seeds, locally known as Dhania, are one of the oldest spices in the world and a staple in Indian cuisine. At **SIDDH SAGAR OVERSEAS**, we export premium-quality coriander seeds sourced from India's most fertile spice-growing regions. Each batch is carefully cleaned, sorted, and packaged to meet international quality and hygiene standards.

With their mild, citrusy flavor and warm aroma, coriander seeds are widely used in spice blends, curries, pickles, and seasoning. They are also valued for their medicinal and digestive benefits, making them a highly demanded spice across global markets.

## Coriander Seeds

Coriander Seeds (Dhania) have a distinctive aroma and taste, that helps in enhancing the taste of a cuisine, when added. Coriander seeds are ground into a fine powder, which is then used to give flavor to the food items.

**Botanical Name:** Coriandrum Sativum

**Common Name:** Coriander, Dhana

**Packing:-** 500gm, 1kg, 5kg, 10kg, 25kg, 50kg
